CISCO IT Essentials 2018
CISCO Networking Essentials 2019
RS JavaScript / Front-end 2020

EDUCATION

Rolling Scopes Course JS/FE 2020 Q3
08.2020 - 02.2021
JavaScript / Front-end

International University "MITSO"
Minsk, Belarus 2012 - 2017
Logistician, engineer title
Supply chain optimization using modern information technologies

MAIN GOAL

Hi There! I'm a Front-end developer from Belarus. I have a technical education, before I was engaged in the design of local networks, now I fully devote myself to a Front-end. I write a clear and semantically correct code and I work with technologies and tools such as Sass, Webpack, Git, Figma on a daily basis. My main professional goal is growing as a developer and grow up to a senior to solve toughest tasks.

STACK

JavaScript, Sass, CSS3, TailWind.
Figma, VSCode, UI, Flexbox, Grid, BEM, Mobile First, Pixel Perfect

EXPERIENCE

 NSS Sp. z o. o.

Poland

01.2022 - ...

Implementation of the project, the product of which is the Fleet Monitoring System, providing a large group of our end customers with detailed vehicle data, including current and historical locations, states, ...

 TECHI SOLUTIONS

Belgium

09.2020 - ...

After graduating from RS-School, I started working with GG as a freelancer. Now the company has grown and opened an office in Warsaw. We continue to cooperate. My primary responsibilities as a JavaScript developer include supporting current projects (over-time).

Studio Widok

Poland

08.2021 - 11.2021

I worked as a front-end dev in a team with a graphic designer and a back-end dev. My main tasks were adaptive layout, writing logic for web apps (stack: Native JS(ES6), Flexbox, Material Design, UI Kit).

Participant  Microsoft IoT in Action 2019
